

BRITISH CHAMBER
OF COMMERCE | EU & BELGIUM
THE ESSENTIAL BRIDGE FOR EU-UK BUSINESS

Statement on the Northern Ireland Protocol 'Windsor Framework'

Brussels, 27 February 2023 – The British Chamber of Commerce | EU & Belgium strongly welcomes the agreement between the UK and EU on the Northern Ireland Protocol today and asks that it is approved by both sides so that it can come into force as soon as possible.

The Chamber believes that the rapid ratification and entry into force of the Agreement is crucial for the resumption of normal trade and business activity between the European Union, Northern Ireland and the rest of the UK.

Tom Parker, President of the British Chamber of Commerce EU & Belgium, comments “the UK-EU relationship is essential for trade and wider issues. We hope this agreement will result in improved co-operation that benefits citizens and businesses, including on key issues such as R&D and the Horizon Europe programme”.
